

KOD DOKUMEN	: BIM 010
PINDAAN	: 01
TARIKH	: 16 JULAI 2021
MUKA SURAT	: 1 / 5

MODEL AUDIT FORM: ARCHITECTURE

PROJECT	
PHASE	REKABENTUK / PEMBINAAN / SERAHAN
MODEL/SYSTEM	
FILE NAME	
DATE	

A. MODEL INTEGRITY AND QUALITY

No.	Description	Reference	Compliance		Remarks
			√ (Yes)	X (No)	
1.	Architectural Model developed in accordance to specified architectural design.				
2.	Architectural Model files are named according to the PWD's BIM Guidelines and Standards				Please specify the guidelines and standards if using other than PWD's BIM Guidelines and Standards.
3.	Architectural Model is structured according to rules that are easily managed. For example, architectural model is managed according to block, tower and podium.				
4.	Architectural Model to be positioned appropriately to the <i>Project Base Point</i> preferably Grid A and 1.	Appendix B.1.A (a)			
5.	Architectural Model should be properly organised and using architectural <i>gridlines and levels</i> .				Floor plan should be associated with appropriate levels
6.	Rooms are catagorised by departments.				
7.	All materials are included in model elements.				

B. PROJECT INFORMATION

No.	Description	Reference	Compliance		Remarks
			√ (Yes)	X (No)	
1.	Project Information should be updated.				

C. PROJECT BROWSER ORGANIZATION

No.	Description	Reference	Compliance		Remarks
			√ (Yes)	X (No)	
1.0	Views (Architectural)				
1.1	Views (Architectural) created based from PWD's architectural template.	Appendix B.1.C (a)			
1.2	WIP views are used for design development and design study purposes.				
1.3	PBT views are used for PBT submission purposes.				
1.4	BOMBA views are used for BOMBA submission purposes.				
1.5	Dokumen views are used for contract documentation, contract implementation and final completion.				
1.6	Spatial and Zoning Analysis are generated from Area Plan.	Appendix B.1.C (b)			
2.0	Legends				
2.1	Contents of Legends are managed as follows: a) Legends for Components b) General Notes				
3.0	Schedules/Quantities				

C. PROJECT BROWSER ORGANIZATION

No.	Description	Reference	Compliance		Remarks
			√ (Yes)	X (No)	
3.1	Schedules/Quantities shall be generated according to: a) Schedule of Accomodation b) Building Component Schedule c) Material Takeoff Schedule				
4.0	Sheets				
4.1	Contents of Sheets are architectural drawings that are managed according to the rules for architecture as follows: a) Title Block b) Drawing Title c) List of Drawings d) General Notes e) Plans f) Elevations g) Sections h) Details i) Others: _____				Sheets should be organised with appropriate view and scale.
4.2	All architectural drawings should use JKR Title Block with furnished information.				Time stamp should be included on the Sheets.
5.0	Link Files				
5.1	Files for the models linked with Architectural Model are correct and up-to-date				

D. ARCHITECTURAL FAMILIES

No.	Components and System Families Category	Compliance				Remarks
		√ (Yes) X (No)				
		Standard Component File Naming shall be in Accordance with Geometry and Standards	Quality and Integrity	Information	Design Geometry	
1.	Floors					
2.	Walls					
3.	Ceilings					
4.	Roofs					
5.	Stairs					
6.	Railings					
7.	Ramps					
8.	Room					
9.	Curtain Systems					
10.	Doors					
11.	Windows					
12.	Caseworks					
13.	Furniture					
14.	Plumbing Fixtures					
15.	Furniture Systems					
16.	Specialty Equipment					
17.	Generic Models					
18.	Columns					
19.	Parking					
20.	Pipes					RWDP

D. ARCHITECTURAL FAMILIES

No.	Components and System Families Category	Compliance				Remarks
		Standard Component File Naming shall be in Accordance with Geometry and Standards	Quality and Integrity	Information	Design Geometry	
21.	Structural Column					
22.	Toposurface					
23.	Mass					

E. PROPERTIES AND VISIBILITY GRAPHIC

No.	Description	Reference	Compliance		Remarks
			√ (Yes)	X (No)	
1.0	View Template are Correctly Applied				
1.1	BOMBA Submission	Appendix B.1.E (a)			
1.2	PBT Submission	Appendix B.1.E (b)
